

tones&colours

About us.

Tones & Colours is a photo-video production company with a fresh take on how stories are told in visual medium. Established in July 2022, our company was born out of deep passion to fill the market gap that lacked fresh eyes for innovative content.

The ideology of storytelling through visuals is what separates us from the rest. We believe colours and visual aesthetics could take a different turn in the current world to convey a story, set the mood and drive emotions. Why be ordinary when you can be a little extra !?
